

Appointmentmentor online appointment management system is the perfect software solution for the Dental Sector: designed by Welltime Ltd, an internationally recognised software company, Appointmentmentor is part of a suite of online, telephony and receptionist tools which not only cuts the cost of cancelled appointments, but also automatically makes these available for short notice patients through an online booking system.

Appointmentmentor is a safe and secure system which will allow your Practice to engage fully with your patients and to provide them with a multilingual 24/7 service which is personal to them and to your practice.

Working round the clock, Appointmentmentor has the ability to handle enquiries and develop relationships, from booking and confirmation of appointments to last minute rearrangements or cancellations, while informing your patients of other new services and options that they can get from your dental practice, like teeth whitening, reconstruction and other cosmetic work.

Appointmentmentor provides an option for the practice to charge for any treatment they want: when enabled, a secure payment system ensures that no chargeable booking will be taken without a valid means of payment, and authorisation to collect treatment and cancellation fees.

Appointmentmentor is designed to be fully integrated into your own website, your existing patient management system and your surgery. If you don't have a website we can take care of that too, taking your practice to a place where it is working for you around the clock, around the world.

Benefits of Appointmentmentor for Dental Practices:

1. Creates a new channel for booking appointments and increasing business.
2. Safe and Secure; it uses highest level of security.
3. System can be easily set up and staff quickly trained to manage it.
4. Automatic system - creating valuable time for other work.
5. Open all hours - no missed opportunities to connect with patients.
6. Integrates seamlessly into your website.
7. If you don't have a website, a professional website with integrated online booking system can be designed for you.
8. Future proof: increasing numbers of patients will expect online contact.
9. Cuts the cost of cancellations and makes the most of available dentist time.
10. Appointmentmentor collects cancellation fees automatically.

Benefits of Appointmentmentor for the Patient:

1. Flexibility in choosing and changing appointment dates and times.
2. Easy to find the most suitable appointments online.
3. Easy to book, easy to pay and easy to repeat business using a credit or debit card.
4. Easy to remember your appointments with reminders by email, text or phone call.
5. Last minute service can offer rapid help before a small problem becomes an emergency.

Appointmentmentor allows your practice to use the most effective communication tools to develop and manage your patient relationships, and to deliver an industry leading solution to meet the demands of the online booking culture fostered by growing internet access.

Our systems and software are developed with the highest level of industry security and are produced by Welltime Ltd. Appointmentmentor has been developed with health professionals, for health professionals to deliver solutions which fully understand the needs of the Dental Sector.
